

Stoke Therapeutics to Present at the Jefferies Global Healthcare Conference

May 29, 2025

BEDFORD, Mass.--(BUSINESS WIRE)--May 29, 2025-- [Stoke Therapeutics, Inc.](#) (Nasdaq: STOK) is a biotechnology company dedicated to restoring protein expression by harnessing the body's potential with RNA medicine and has a lead investigational medicine, zorevunersen, in development as a first-in-class potential disease-modifying treatment for Dravet syndrome. The Company today announced that Interim Chief Executive Officer Ian F. Smith will present at the Jefferies Global Healthcare Conference on Wednesday, June 4, 2025, at 1:25 p.m. ET.

A live webcast of the presentation, along with an archived replay, will be available in the Investors & News section of Stoke's website at <https://investor.stoketherapeutics.com/>.

About Stoke Therapeutics

Stoke Therapeutics (Nasdaq: STOK), is a biotechnology company dedicated to restoring protein expression by harnessing the body's potential with RNA medicine. Using Stoke's proprietary TANGO (Targeted Augmentation of Nuclear Gene Output) approach, Stoke is developing antisense oligonucleotides (ASOs) to selectively restore naturally-occurring protein levels. Stoke's first medicine in development, zorevunersen, has demonstrated the potential for disease modification in patients with Dravet syndrome and is expected to enter Phase 3 development in 2025. Stoke's initial focus are diseases of the central nervous system and the eye that are caused by a loss of ~50% of normal protein levels (haploinsufficiency). Proof of concept has been demonstrated in other organs, tissues, and systems, supporting broad potential for the Company's proprietary approach. Stoke is headquartered in Bedford, Massachusetts with offices in Cambridge, Massachusetts. For more information, visit <https://www.stoketherapeutics.com/>.
