

## **Stoke Therapeutics to Present at 2019 Cantor Global Healthcare Conference**

September 30, 2019

BEDFORD, Mass.--(BUSINESS WIRE)--Sep. 30, 2019-- Stoke Therapeutics, Inc. (Nasdaq: STOK), a biotechnology company pioneering a new way to treat the underlying cause of genetic diseases by precisely upregulating protein expression, today announced that Chief Executive Officer Edward M. Kaye, M.D., will present at the 2019 Cantor Global Healthcare Conference on Wednesday, October 2, 2019 at 10:05 a.m. Eastern time in New York, New York.

A live audio webcast of the presentation will be available on the Investors & Media section of Stoke's website at <https://investor.stoketherapeutics.com/>. A replay of the webcast will be available for 30 days following the presentation.

### **About Stoke Therapeutics**

Stoke Therapeutics, Inc. (Nasdaq: STOK), is a biotechnology company pioneering a new way to treat the underlying causes of severe genetic diseases by precisely upregulating protein expression to restore target proteins to near normal levels. Stoke aims to develop the first precision medicine platform to target the underlying cause of a broad spectrum of genetic diseases in which the patient has one healthy copy of a gene and one mutated copy that fails to produce a protein essential to health. These diseases, in which loss of approximately 50% of normal protein expression causes disease, are called autosomal dominant haploinsufficiencies. Stoke is headquartered in Bedford, Massachusetts with offices in Cambridge, Massachusetts.
