

Stoke Therapeutics to Present at 38th Annual J.P. Morgan Healthcare Conference

January 7, 2020

BEDFORD, Mass.--(BUSINESS WIRE)--Jan. 7, 2020-- Stoke Therapeutics, Inc. (Nasdaq: STOK), a biotechnology company pioneering a new way to treat the underlying cause of severe genetic diseases by precisely upregulating protein expression, today announced that Chief Executive Officer Edward M. Kaye, M.D., will present at the 38th Annual J.P. Morgan Healthcare Conference on Tuesday, January 14, 2020 at 2:30 p.m. PT (5:30 p.m. ET) in San Francisco.

A live audio webcast of the presentation will be available on the Investors & Media section of Stoke's website at <https://investor.stoketherapeutics.com/>. A replay of the webcast will be available for 30 days following the presentations.

About Stoke Therapeutics

Stoke Therapeutics, Inc. (Nasdaq: STOK), is a biotechnology company pioneering a new way to treat the underlying causes of severe genetic diseases by precisely upregulating protein expression to restore target proteins to near normal levels. Stoke aims to develop the first precision medicine platform to target the underlying cause of a broad spectrum of genetic diseases in which the patient has one healthy copy of a gene and one mutated copy that fails to produce a protein essential to health. These diseases, in which loss of approximately 50% of normal protein expression causes disease, are called autosomal dominant haploinsufficiencies. The company's lead investigational new medicine is STK-001, a proprietary antisense oligonucleotide (ASO) that has the potential to be the first disease-modifying therapy to address the genetic cause of Dravet syndrome, a severe and progressive genetic epilepsy. Stoke is headquartered in Bedford, Massachusetts with offices in Cambridge, Massachusetts.
