

Stoke Therapeutics to Present at Upcoming Investor Conferences

March 24, 2021

BEDFORD, Mass.--(BUSINESS WIRE)--Mar. 24, 2021-- Stoke Therapeutics, Inc., (Nasdaq: STOK), a biotechnology company dedicated to addressing the underlying cause of severe diseases by up-regulating protein expression with RNA-based medicines, today announced that Chief Executive Officer Edward M. Kaye, M.D., will present at two upcoming investor conferences, which will each be conducted in a fireside chat format:

Stifel 3rd Annual CNS Day

Date: Wednesday, March 31, 2021

Time: 2:00 p.m. ET

20th Annual Needham Virtual Healthcare Conference

Date: Thursday, April 15, 2021

Time: 12:45 p.m. ET

A live audio webcast of each fireside chat will be available on the Investors & Media section of Stoke's website at <https://investor.stoketherapeutics.com/>. A replay of the webcast will be available for 30 days following the fireside chats.

About Stoke Therapeutics

Stoke Therapeutics (Nasdaq: STOK), is a biotechnology company dedicated to addressing the underlying cause of severe diseases by up-regulating protein expression with RNA-based medicines. Using the company's proprietary TANGO (Targeted Augmentation of Nuclear Gene Output) approach Stoke is developing antisense oligonucleotides (ASOs) to selectively restore protein levels. The company's first compound, STK-001 is in clinical testing for the treatment of Dravet syndrome, a severe and progressive genetic epilepsy. Dravet syndrome is one of many diseases caused by a haploinsufficiency, in which a loss of ~50% of normal protein levels leads to disease. The company is pursuing treatment for a second haploinsufficient disease, autosomal dominant optic atrophy (ADOA), the most common inherited optic nerve disorder. Stoke's initial focus is haploinsufficiencies and diseases of the central nervous system and the eye, although proof of concept has been demonstrated in other organs, tissues, and systems, supporting the company's belief in the broad potential for its proprietary approach. Stoke is headquartered in Bedford, Massachusetts with offices in Cambridge, Massachusetts.
