

Stoke Therapeutics to Present at the 43rd Annual J.P. Morgan Healthcare Conference

January 8, 2025

BEDFORD, Mass.--(BUSINESS WIRE)--Jan. 8, 2025-- [Stoke Therapeutics, Inc.](https://www.stoketherapeutics.com) (Nasdaq: STOK), a biotechnology company dedicated to restoring protein expression by harnessing the body's potential with RNA medicine, today announced that management will present at the 43rd Annual J.P. Morgan Healthcare Conference on Wednesday, January 15, 2025, at 6:00 p.m. ET (3:00 p.m. PT).

A live audio webcast of the presentation will be available on the Investors & News section of Stoke's website at <https://investor.stoketherapeutics.com/> and can be accessed by following this [Link](#). A replay of the webcast will be available for 30 days following the presentation.

About Stoke Therapeutics

Stoke Therapeutics (Nasdaq: STOK), is a biotechnology company dedicated to restoring protein expression by harnessing the body's potential with RNA medicine. Using Stoke's proprietary TANGO (Targeted Augmentation of Nuclear Gene Output) approach, Stoke is developing antisense oligonucleotides (ASOs) to selectively restore protein levels. Stoke's first compound, zorevunersen (STK-001), is in clinical testing for the treatment of Dravet syndrome, a severe and progressive genetic epilepsy. Dravet syndrome is one of many diseases caused by a haploinsufficiency, in which a loss of ~50% of normal protein levels leads to disease. Stoke is pursuing the development of STK-002 for the treatment of autosomal dominant optic atrophy (ADOA), the most common inherited optic nerve disorder. Stoke's initial focus is haploinsufficiencies and diseases of the central nervous system and the eye, although proof of concept has been demonstrated in other organs, tissues, and systems, supporting its belief in the broad potential for its proprietary approach. Stoke is headquartered in Bedford, Massachusetts with offices in Cambridge, Massachusetts. For more information, visit <https://www.stoketherapeutics.com/>.
